

Fall arrester SSL 8-R1

6012102

GTIN: 4007126009012

The fall arrester SSL-8-R1 meets the new requirements of the applicable European regulation on personal protective equipment (Regulation (EU) 2016/425) and the standard DIN EN 353-1:2018. Our SSL-8-R1 fall arrester is ideally suited as a reliable system for protecting against falls from fixed ladders. Equipped with an integrated belt trap element to minimize the impact forces.

- On rope-based climbing protection system H-8 according to EN 353 part 1
- Equipped with an integrated belt trap element to minimize the impact forces
- Optimal running on the rope
